

NEWS OF THE WEEK

Short News Items of Interest to the Reader.

For a good potato try Caminetti's Burbanks.

The estate of Frank Hoffman has been appraised at \$26,894.

Pioneer Flour is the "Lily of the Valley," the "Pearl of Perfection."

Judge Davis returned Sunday evening, after spending the fourth in the city.

Nothing will please an invalid as well as a package of those fancy cakes from Caminetti's Mkt.

Phone us for ice cream for your Sunday dinner. We will deliver it on short notice. Penry & Moon.

C. W. Schacht, Dentist, Webb building. Hours—9 to 12 a. m.; 1 to 5 p. m. Saturdays 9 to 12 a. m.; 1 to 4 p. m.

Mrs. Z. Kirkwood and family left Wednesday for Silver Lake, and will open up their hotel for the summer.

Miss Kate Driscoll, who is now spending her vacation in San Jose, was appointed principal of the Aetna school for the coming term.

Amiel Scotie, a fireman, who was brought up in Jackson and will be remembered by the old residents here, was severely burned by the big fire in Oakland this week, which destroyed over \$100,000 worth of property.

The coolest drinks in town can be had at Penry & Moon's.

Henry Barton, a Jackson boy, now of Sacramento, came up last Monday evening, accompanied by his friend, Rich. Mansfield. They left Wednesday on a camping trip to Antelope and vicinity.

Surveyors are at work searching for a narrow gauge line for the California Door Factory's timber near Dogtown. Three surveys are to be made. One from Diamond Springs, one from the Seven Mile House and one from Ione, to determine which will be the most economical route for getting lumber out.—El Dorado Republican.

Summer hats at the Jackson Shoe Store. Latest styles, best quality, and reasonable prices. Agents for the Kingsbury hat.

Dr. Herrick and family returned home Tuesday evening after a month's tour of the southern part of the state. The doctor was much impressed with the enterprise and go-ahead spirit he found in that section. The people have prospered because they all pull to that end. Coronado and a trip into foreign territory across the Mexican boundary were included in the outing.

At the baseball game on the 4th, Ed. Delahide was struck a blow in the head by the ball. He was at the bat, when the ball from the pitcher struck him close to the ear. It knocked him senseless. Dr. Endicott was called and pronounced the injury not at all serious. He revived almost immediately, and continued in the game to the close.

Ladies' black hose at 10c per pair at the Jackson Shoe Store.

The trustees of the Jackson school district held the annual election of teachers last Monday evening, and elected as follows: Principal, W. S. Williams; teachers, Misses Alice Gartin, Esther Devan, Nettie Morrow, Nellie Payne, Bertha C. Mason and Esther L. Breese, all of whom were re-elected except Miss Breese, who takes the place of her sister who had resigned.

"Force," a ready-to-serve, ready-to-digest, delightful food, brings the independent strength that comes of health.

Jack Adams was discharged from the county jail last Monday, after serving 100 days less credits. He left the next morning by stage to Ione, on route for San Francisco. It is his intention to leave for the east. He looks remarkably well, stouter and stronger than he ever did. Before leaving he shook hands with several of his intimate acquaintances, and remarked that his experience would prove a valuable lesson to him, one that would have a salutary influence on his future life. He leaves the scenes of his boyhood days, determined to carve out a new path for himself. He is a very handy man about electric and telephone wires, and there is no doubt he can command good wages in these lines anywhere in the United States.

A full line of hosiery and socks at the Jackson Shoe Store.

A double-seated buggy, containing Mrs. Breese and three daughters, Julia, Esther and Rachel, with R. C. Bolo driving, came to a sudden halt on Main street Wednesday evening. The party was just starting for Plymouth, to be present at the Breese-Wheeler wedding. On turning the corner from Water street into Main street, the rear axle broke, tilting the buggy with a sudden thud as the corner of the vehicle struck the ground. The horses were not scared in the least, and did not move more than a couple of yards after the shock. The occupants of the buggy held their seats, making not the least outcry. In five minutes another vehicle was secured, and the party proceeded on their journey to the scene of the wedding.

J. B. Tregloan, connected with the State Mining Bureau, has been working in Jackson district the past week, and expects to remain here for several days longer. He is engaged in mapping and gathering information concerning the mines of this vicinity. Incidentally he is working also for securing a fair exhibit of Amador's mineral products at the St. Louis fair next year. He has visited Volcano district, and in fact all the regions to the east of Jackson. After a careful investigation he expresses himself as surprised at the mineral resources of that portion of the county. It has not been given any thought. It is not contended there is anything that can compare with the mother lode in that region, but the multitude of smaller veins richly freighted with gold, are deserving of more attention than they have hitherto received, and the problem of whether they descend to great depth is as yet an unsolved one.

A Commendable Act.

According to notices published around town, a special meeting of Jackson Miners' Union was held Tuesday evening. The particular business that called them together in special session we are not prepared to state. It is common report on the street, however, that one of the prominent subjects of discussion was the so-called "scab" notices which were posted around town about six weeks ago. These notices have created a great deal of adverse criticism. They have also caused not a little talk in the ranks of the union members. There is a large and growing element in the camp adverse to such rabid measures. They realize that the safe course to pursue in advancing the interests of organized labor is to show a conservative and conciliatory spirit, recognizing the right of any citizen to join or decline to join their order as he may see fit, and that too without in any way sacrificing his right to earn a living by working in the mines. To try to bulldoze men into their organization by threats of blacklisting, or labeling them as "scabs," or refusing to work with them, and all such extreme steps, was looked upon as unwise, and calculated to weaken the union by affixing the seal of public condemnation. Hence this wing endeavored to lead the local order into paths of safety. With the interests, not only of themselves, but of the whole community at heart, they desire to re-establish confidence among mining investors by a fair and liberal policy. Some time ago, we are informed, an effort was made to have the "scab" proclamation rescinded and the notices taken down. It did not succeed entirely, but the day of grace was extended for another month. This period of extension has not more than half expired. Encouraged by their partial success, these workers having the true interests of labor at heart, pressed forward in the good work. At the meeting this week, we are told, a resolution was passed to rescind the "scab" proclamation. On Wednesday morning the printed notices, which have disfigured the bulletin boards and a number of business premises in town, were removed. They were taken down in the same manner as they were posted up—by official action. The Ledger is always willing to give credit for a commendable act, and we do not hesitate to say that Jackson Union, by this deliberate and well-timed proceeding, has done much toward allaying that apprehension in investment and business circles that has given such a serious setback to the development of our resources. Reason is again enthroned. We have no doubt this spirit will continue in the ascendant.

No harm can come of a labor organization if properly conducted, with a due regard for the interests of the outsider as well as the insider. Indeed, much benefit will accrue to its members when so conducted. We hail this latest move of the local union, as a deliberate withdrawal from the path mapped out when flushed with the idea of newly discovered power, and a determination to exercise it to the limit. In lieu thereof, the olive branch of peace is extended. With this feeling prevailing, the unrest should disappear and the mining industry hereabouts be prosecuted with increased energy.

Consolidation of Lumber Interests.

The lumber interests of Amador county are being gradually absorbed by the Amador Lumber Company. The company has recently purchased the stock of lumber in the Allen yard in Sutter Creek. They have also secured a tract of land comprising five acres near the Vicini hotel on Sutter hill. Here they will establish a wholesale lumber yard, from which lumber will be distributed to all parts of the county. Sheds are now in course of construction, and teams are hauling lumber from the mills at Tiger creek to this point.

In Trouble at Sheephorn.

Steve Cassella, who is said to be an Amador City man, is incarcerated in Jail at San Andreas for a murderous assault upon a miner named Jack Morris at Sheephorn on Wednesday last week. Both men work in the mine. They had a quarrel some weeks before, in which Cassella was worsted. He resolved on revenge. As Morris was coming home from work on the night shift on the morning in question, he was met by Cassella, who struck him twice over the head and once on each arm with a bar of iron, with which he had armed himself for the occasion. It was at first thought that the skull was fractured. This fortunately proved incorrect. Cassella fled after the occurrence and went to Stockton. He was arrested as he attempted to leave the train on its arrival in that city.

Catastroph of the Stomach.

When the stomach is overloaded; when food is taken into it that fails to digest, it decays and inflames the mucous membrane, exposing the nerves, and causes the glands to secrete mucus, instead of the natural juices of digestion. This is called Catarrh of the Stomach. For years I suffered with Catarrh of the Stomach, caused by indigestion. Doctors and medicines failed to benefit me until I used Kodol Dyspepsia Cure—J. R. Rhodes, Copper, Texas. Sold by City Pharmacy, Jackson.

Our ladies' oxforas are the latest styles and best quality. Every pair guaranteed at the Jackson Shoe Store.

M. E. Church, services next Sunday—Sunday school 10 a. m.; sermon, "God's acquaintance," 11 a. m.; Epworth league 7 p. m.; sermon, "How to be saved," 7:45 p. m. Installation of new officers of Epworth league at regular session.

L. J. Glavinovich received word last Saturday that his little daughter, Vondita, who lives with her grand parents, Mr. and Mrs. S. G. Spagnoli, at Richmond, was very low with typhoid fever. Mrs. Glavinovich went down on Sunday, and her husband went the following Tuesday. The little girl has since improved and is now out of danger. Her father returned to Jackson last night; the mother expects to remain with her for another week.

See our swell line of men's oxforas. Something new and up-to-date. The Jackson Shoe Store.

St. Augustine's church—Divine service Sunday next. Evening prayer and sermon 8 p. m.

LOCAL MINING NEWS

Notes From Amador County Mines. Kennedy Picking Up.

KENNEDY—The clean-up at this mine for last month was the heaviest for many months. We are not in a position to state the amount. Rumor has it that it was something over \$40,000, the product of 70 stamps. This is far better than the average yield for the past two years.

GRAND PRIZE.—This mine, the property of G. S. Andrews, is situated in Pioneer district, adjoining the Horn mine. The first shipment of ore from this claim took place this week, consisting of one car load, containing 13 tons. It was sent to Selby smelting works. The ore came from below the tunnel level. Mr. Andrews accompanied the shipment in person.

BUTTE BASIN.—W. E. Stewart informs us that work is to be started at once on the Butte basin gravel claim. The intention is to sink the shaft 40 feet deeper by means of a horse whim, and prospect the gravel at that depth. Work will be commenced early next week. Rich prospects, ranging as high as \$6 to the pan, have been obtained from this basin, and it is believed that richer spots will be found below existing works. Badrock has never been reached.

DEL MONTE.—The annual meeting of stockholders was held in Jackson July 6. The old board of directors were elected for the ensuing term, as follows: F. A. Voorheis, Geo. O'Neill, Wright, Richard Webb, B. C. O'Neill, and C. O'Neill. The tunnel is still in the hardest kind of rock, and progress is therefore slow. About 45 feet progress has been made during the past month, with 180 feet more to make before reaching the point where it is expected to encounter the ledge. It was decided to discontinue work on this tunnel for the present, and crush some 300 tons of ore on the dump, should it prove of paying quality. After this work on the tunnel will no doubt be resumed.

SAND PILE MINE.—Extensive works are being erected at this mine near Forest Home. The material constituting the mine consists of immense accumulations of tailings from the Plymouth Consolidated mills. There are hundreds of thousands of tons of these tailings. It is said that assays give a value of from \$2 to \$3 per ton in gold. With such a value there certainly ought to be some way of working them at a profit. To this end D. Frisco is now putting up works for their treatment by the cyanide process. He has already spent thousands of dollars on the plant, and there is much work to be done before it gets in running order.

DEFENDER.—Situated about six miles north of West Point, in Amador. Less than four years ago F. B. Joyce began with a ten-foot hole and a working bond, his first adventure in mining. When about 80 feet deep the ore justified a mill, and a second hand one of four stamps was put on, and with this he took out \$40,000 in sinking 300 feet, and running levels each way about 150 feet, with no stopping. About 150 tons were shipped to Selby, running from \$50 to \$130. Now he has a new 10-stamp mill, and is running on reserves above 300 feet, and will resume sinking. Quite a burg has grown up at Defender. He has a store, teams, house, postoffice, and a schoolhouse used as a church also. After the mill was built the mine paid for itself, and with a good profit. His success, starting with a prospect, makes a good object lesson.—Pick and Dail.

FOURTH IN JACKSON.

Baseball Game and Dance.

The fourth in Jackson passed off in the quietest manner known for years. There was nothing in the way of literary exercises nor amusements of any kind in town. Indeed, the day would have passed off like any other day had it not been for Frank Burgin, who, seeing that the citizens were not disposed to take any action looking to the regular observance of the day, arranged a baseball game between the Jewel Bourbons and the Lodi team. Game was called in the afternoon, on the new grounds on Dwyer's hill. It drew a large crowd, not only of town folks, but many from the surrounding country. The outcome was a bad defeat for the Jackson players. The visitors proved themselves experienced in this particular art, and won easily. At the conclusion of the game the score stood 15 to 4 in favor of Lodi.

In the evening a grand ball was given in Love's hall, which was crowded to its utmost capacity. Music for the day and evening was furnished by the Jackson band. Frank Burgin is entitled to much credit for his efforts in catering for the amusement of the public. At great expense he has fitted up a baseball ground close to the town lines; the finest ground the boys have ever had in this vicinity. Not only the players, but the citizens generally ought to encourage these efforts. And we are pleased to state that they have shown appreciation by liberal attendance at the games which have been played. Every step in the way of furnishing innocent and healthful amusement is a public benefit. It draws people here, and the gathering of people leads to the circulation of more or less money among the business houses.

Another baseball game was played on Sunday between the same teams, which ended the same way, only more so, the Lodi being victors with a score of 19 to 5.

Money in Treasury

By official count made July 6th, the amount and kind of money in the county treasury was as follows:

Gold	\$22,320 00
Silver	11,540 17
Currency	653 59
Checks	1,580 00
Warrants uncanceled	13,792 23
Total	\$49,885 99

For Rent—House of 5 rooms, with barn, chicken house, garden, etc., on Broadway. Apply to F. Simcich, Union House, Jackson.

Additional Locals.

Give us daily some good bread. Pioneer Flour makes the best.

Fresh fish every Thursday and Friday at the Up To Date Market.

Lemons, oranges, and bananas constantly on hand at Caminetti's Mkt.

J. F. Wilson, Dentist. Hours 9 a. m. to 5 p. m. Phone Main 194. Jackson, Cal.

Order your fruit for canning, and get the benefit of fresh goods at special rates. The Up-to-date Market.

Mrs. Lillie Love and three children left this week for a month's visit with friends near Acampo, San Joaquin county.

Samuel Kemp left for San Francisco Sunday morning. His health has been far from good for several months, and his visit to the city is mainly on that account.

Miss Rose Green, compositor in the Ledger office, also her sister, Mrs. G. M. Huberty, and children, left Wednesday morning for Vallejo to spend a couple of weeks with friends in that city.

E. S. Clute of Menlo Park passed through Jackson last Tuesday evening en route to his old home at Volcano, where he will remain a week visiting relatives and friends.

Blackberries received fresh every day at the Up-to-date Market.

W. A. Newcum, receiver of the Sacramento land office, and former proprietor of the Ledger, came up from Sacramento Friday evening accompanied by his wife, to spend a few days with friends in Jackson.

Mrs. Breese, who has been residing in Oakland for several months, returned to Jackson Friday evening, and will again make her home here. She was accompanied by her daughters, Misses Rachel, Esther, and Julia Breese.

J. L. Bentley, formerly proprietor of the Sutter Creek Democrat, but now traveling correspondent of the Pacific Coast Miner, was in Jackson this week, for the purpose of writing up the mining interests of the county. He expects to remain in the county for the next two weeks.

This week the sheriff's office was informed that a sorrel mare, about 3 years old, 17 hands high, weighing from 1300 to 1400 lbs., small skinned place on breast, also one black horse, 2 years old, split in right ear, white stripe in face, both hind feet white, 15 or 16 hands high, were stolen from the McGuire ranch near Ione on July 4. The animals turned up at the home place a day or two afterwards, thus exploding the felony theory.

John H. Moore, an employee at the Campo Seco copper mine, was married in Sacramento last Monday to Miss Nina M. O'Hara. Both contracting parties are well known in Jackson. Mr. Moore has worked in the mines of this neighborhood for years. His bride was a trained nurse, and came up here in her professional capacity when the smallpox epidemic was raging three years ago. Mr. Moore was in Jackson Tuesday, to gather up his personal effects, and left for Campo Seco Wednesday.

A Strike in Tuolumne County.

The miners affiliated with the Western Federation of Miners in Jamestown district went out on strike last Friday, because of the employment of a few non-union miners. The strike involves four mines—the Jumper, Golden Rule, Santa Ysabel and App. These properties employ about 300 men. They embrace the principal working mines of Tuolumne county. The union posted up notices five weeks ago, similar to the famous notices that were posted throughout this county, stating that all who failed to become members of the union by a specified date would be regarded as scabs. Seven men failed to send in applications for membership. One was employed at the Jumper, two at Santa Ysabel, and four at the App. The union miners decided that they would not work with them, and struck. The strike means either of two things: to force these men to join the union, or force the mine owners to discharge them. It is a clear cut issue of all union or all non-union employees. The outcome will be awaited with much interest. It is a contest of vital importance as affecting not only the mineral industry of the district particularly concerned, but of the entire mother lode region.

Want Only One Union.

The Western Federation of Miners is not at all pleased over the organization of the engineers and other employees above ground in connection with the mines of this county as a labor union affiliated with American Federation of Labor. There has been some feeling created thereby. The Western Federation is anxious to get the engineers and other men to join their organization. These men, who have already identified themselves with the new organization, are contented with their lot, and manifest no disposition to change front. The friction, we are told, has become quite acute at the mines in Amador City district during the past week. A representative of the Western Federation acting under instructions from headquarters, made an effort to win them over to his side. The engineers of the Keystone, Bunker Hill and Fremont were waited upon, and urged to join the Federation. A letter from the secretary of the Denver headquarters was shown as authority for the move to bring them into the orthodox camp. The engineers, however, do not appear to take kindly to the invitation. They were very emphatic in declaring their preference to remain where they are. This latest move has caused quite a stir, and is likely to lead to trouble if pressed to extremes.

We learn that the engineers have been given twenty-one days to join the Western Federation. A failure to join, as things now stand, means a refusal to work with those adhering to the American federation. Three weeks, however, will afford ample time for reflection, and the sober second thought to gain supremacy.

BOARD OF SUPERVISORS

Meet in Regular Session on Monday, July 6th—Bills Allowed, etc.

The board of supervisors met July 6, all the members being present. The minutes of last regular meeting, also of special meeting June 6, were read and approved.

On motion of supervisor L. Burke, seconded by supervisor M. Newman, the bid of the American River Electric Company for a franchise to lay and maintain poles, wires, etc., for the transmission of electric current along the roads of Amador county was accepted, and an ordinance to that effect was ordered published. The resolution was passed by unanimous vote of the board.

James Grillo Sr., was granted permission to lay water mains, pipes, etc., for the purpose of supplying Volcano with water for domestic and irrigating purposes, and an ordinance to that effect was ordered published.

SALARY FUND.

M. Newman, W. M. Amick, E. B. Moore, and L. Burke were allowed \$25 each as road commissioners. Petition of J. C. Lucas for right of way across street in Lancha Plana was granted.

Complaint of J. S. Gusto and petition for removal of license of Victorio Ghilano of Jackson City were read and laid over until next meeting, July 14, the clerk to notify interested parties.

A. H. Kuhlman was granted ten days further time in which to complete his application for license.

Application of Patrick Tallon and Theo Crocker, also of Frank Simcich and Martin Herzo for liquor licenses in Jackson were granted.

Communication from Geo. A. Gordon relative to the number of census children in Amador county was read and filed.

Communication from Geo. A. Gordon relative to the Mount Pleasant school district was read and filed, said school district having been given right of having less than the minimum number of school children.

A number of cases of double assessments, to wit: W. L. Rose, house near Baller mine; E. Hamack, house and lot in Amador; also assessed to J. B. Tregloan; D. Del Barba, house and lot in Jackson, also assessed to Chas. Gilbert, and the same were ordered canceled by auditor.

J. B. Tregloan appeared before the board relative to an appropriation for the collection of minerals for an exhibit at the St. Louis Exposition. No action taken.

Criminal returns of H. Goldner, Jas. McCauley, W. L. Rose, and John Blower; also hospital report, monthly report of health officer, treasurer's report, and statement of license collector for term ending June 30, were approved.

Warrants were canceled as follows: School fund.....\$943 41
